INSTRUCTIONS FOR ASSEMBLING
VAMPIRELLA[®]
 PLASTIC MODEL KIT

KIT NO.
 411-20088T

IMPORTANT – READ THIS FIRST!

TIPS!

– AFTER YOU ARE FINISHED WITH PAINTING THE HAIR, YOU CAN USE A WHITE WATER COLOR PENCIL TO CREATE HIGHLIGHTS ON THE RIDGES OF THE HAIR STRANDS.

- This model needs to be assembled. Please read the instructions carefully before assembling the model.
- After taking the product out of the plastic bag, please tear the plastic bag and dispose of it somewhere safe as there is a danger of suffocation if young children mishandle it.
- Cleanly clip the parts from the trees and discard the trees after all parts have been removed.
- Due to the way this product is manufactured, there will always be a possibility of there being sharp points that may cause harm. Be sure not to play with or mishandle the trees or use them for anything than their intended use. Households with young children should be particularly careful.
- Use nippers for removing parts and smooth over any burrs remaining on parts with a craft knife or file. Be careful when using nippers, craft knives or files as you may cut your hands or fingers. Children under 10 years old should have the work carried out by a parent or guardian.
- This kit contains small parts which can be a choking hazard so please keep them out of reach of younger children. Under no circumstances should a child younger than the target age be left unsupervised as there is a risk of swallowing these parts.
- If you are using plastic cement or paint, pay extra attention to the following points: If the cement or paint gets in your eyes, immediately wash the affected area with plenty of water and consult a doctor. Do not use cement or paint in an enclosed area as there is a danger of inhaling toxic fumes. Under no circumstances should you use cement or paint near an open flame as there is a risk of fire.
- Do not leave this product in areas subject to direct sunlight, high temperatures or high humidity.

PRO TIP!

You can use soft steel wool to smooth out the seam lines after gluing everything together. After the glue has dried, simply scrub gently over the seam lines a few times until they are no longer visible.
