TIPS!

- YOU CAN SHORTEN THE BANGS TO YOUR LIKING BY SCRAPING IT FROM THE BOTTOM.

- DUE TO THE MOLDING, THE EYELASHES/EYELINES ARE SLIGHTLY EXPANDED. YOU CAN SCRAPE IT AND REDUCE THE VOLUME AS YOU LIKE.

- This model needs to be assembled. Read the instructions thoroughly before constructing the model.
- After taking the product out of the plastic bag, tear the plastic bag and discard it safely, since there will be a danger of suffocation if young children mishandle it.
- Cleanly clip the parts from the trees, discarding them after all the parts have been removed.
- Due to manufacturing circumstances, it is unavoidable that there will be sharp points that may cause harm. Be sure not to play or mishandle the trees or use them for unintended purposes. Households with young children should be particularly careful.
- Use nippers for removing parts and finish any burrs remaining on the parts using a craft knife or file. Be cautious of mishandling nippers, craft knives or files as they may result in cuts to the hands or fingers. Children younger than 10 years of age should have the work carried out by a parent or guardian.
- As the kit contains small parts, please keep them out of reach of younger children as they may cause a choking hazard. Due to the danger of mistakenly swallowing parts, be absolutely certain to keep them away from unsupervised children younger than the target age.
- (In the situation where you use cement or paints, take care of the following points). If cement or paint gets in your eyes, immediately wash the affected area with large amounts of water and consult a doctor. Do not use cement or paint in enclosed rooms, since there will be danger of toxic inhalation. Absolutely do not use cement or paint near sources of open flame, as there will be danger of ignition.
- Do not leave the product in locations subject to direct sunlight or in places with high temperature or high humidity.
